FDD Abstract [REDACTED]

ANNUAL REPORT ON COMMERCIAL ROAD TRAFFIC IN LAND SACHSEN-ANHALT (5 pp; [REDACTED])

25X1X

25X1A [REDACTED] Comment: These are excerpts from a report of the Allgemeine Transportgesellschaft (General Transport Company) (ATG) of Land Sachsen-Anhalt for 1950. The ATG is organized on a Laender basis and covers the entire commercial road traffic of the Land concerned. Centralized control is exercised by the Soviet Zone Directorate General, Motor Traffic and Roads.

The document is a typewritten copy of the most important tables extracted from a report dated 20 March 1951. It covers the years 1946-1950 and provides data on trucks, tractors, and trailers, subdivided by number of vehicles, type of motive power, loading capacity, transport performance in local and long-distance traffic (in tons, ton-kilometers, payload-kilometers, and empty-kilometers), and fuel and lubricant consumption.

25X1A [REDACTED] the ATG in Sachsen-Anhalt ranks first among the ATG's of all Laender, and that on this basis the tables should permit an evaluation of all ATG's in the German Democratic Republic.
